Precautions Against Cholers.

WASHINGTON, Aug. 26 .- The official goverament having charge of the enforcement of the quarantine laws of the country is unquestionably much concerned over the perious bold the spidemic of cholera has taken in Europe, and clews the situation in regard to the admission of the disease into the United States with some alarm.

into the United States with some alarm, though they feel fully prepared and able to cope with it in case by any chance it should become epidemic bare. Such a thing, however, is not at all anticipated.

The Marine hospital service, which is immediately under the supervision of the treasury department, has all matters relating to the quarantine in charge, and is better able now than since its establishment to prevent the introduction of discussed into the United States. Surgeon-General Wyman has taken every step thought to be necessary to prevent choiers making its appearance in this country, and has strengthened the service and made it as efficient as possible.

CHOLERA IN ENGLAND.

### CHOLERA IN ENGLAND.

LONDON. Aug. 26.—There is no doubt that cholera has at last entered England. The disease was brought here by the steamer Gomma, which arrived at Gravesend yesterday from Hambure. It was reported that the steamer was infected, but the authorities, after examining the passengers, allowed them to land. A few hours afterwards two alleas who arrived on the Gomma were taken sick. They were at once removed to the hospital at Gravesend, where the doctors pronounced their malady cholera. In spite of medical sid they both died shortly after being admitted. This has caused considerable saxiety and close inspection of all incoming vesses has been ordered.

pects on board. The vessel was immediately ordered to put back to sea. The officers and passengers protested against such summary treatment, but the health officers were obdurate and refused to let a single person land from the steamer. Prince Esterbary, an attache of the Russian legation, has been suffering from an attack of cholerine, but is recovering.

EPIDEMIC IN BUSSIA.

St. Paranssund, Aug. 26.—The cholera returns for yesterday show another unward jump in the number of new cases. There were restorday 6,22 new cases, an increase of 700 over the previous day. The deaths were 2,277, an increase of 23). In St. Petersburg alone there were 103 new cases and 24 deaths.

ADVICES FROM HAMBURG.

Berlin, Aug. 26.—A most welcome thunderstorm has passed over the city. The air is cleared and the weather is much cooler.

Despite every effort to check it, the cholera is increasing at Hamburg. Over 800 cases have been recorded with 300 deaths.

COMMUNICATION WITH HUSBIA STOPPED. Benish, Aug. 26.—Orders have been issued to atop railway traffic with Russia at every point on the frontier of east Prussia except Eydkubes and Prostken.

SUDDEN DEATHS IN BERLIN. BRULIN, Aug. 36.—This morning a woman became suddenly ill in an omnibue and was taken to a hospital, where she was pronounced to be suffering from Asiatic cholera. The Moahit hospital has been reserved for cholera patients.

All trade in second-hand clothing has been stopped.

A workman on a train on the Hamburg-Berlin railway was seized with Asiatic cholera today at Wittenburg, and died in a few hours.

OPINION OF A SCIENTIST.

He Considers It Will Be a Miracle If the Cholera Does Not Come to America.

New ORLEANS, Aug. 26.-Joseph Hot, one of the most distinguished sanitary scientists in the United States, in an in-

terview regarding the choices, said:

When I consider the exposed, or very imperfectly projected line of the Atlantic seaboard. Including the St. Lawrence, the stuation appears to me to be one of the extremest eravity. I will regard it as only a little short of a miracle if the choicer afails to follow its old and accustomed line of travel, involving an invasion of this continent. If we escape it will only be through awakening to our perilous situation and by extraordinary efforts of an immediate enforcement of rational and scientific methods of defense as embraced in our own quarantine system."

JOHN MORLEY, M. P. John Morley, the new chief secretary for Ireland in the Gladstone cabinet, achieved fame in the literary field long before his entrance into politics. He was born at Blackburn, Lancashire, England, in 1888, in 1850 he graduated from the University of Oxford, and for some years after was the editor of the Literary Guzette, tater

known as The Parthenor. In 1867 he became editor of the Fortnightly Review, and in 1850 assumed charge of the Poli Mail Gazette. This he gave up to devote more time to politics, and he became a potent factor in the Liberal ranks. In 1886 he was made chief secretary for Ireland, and resigned when the Salisbury ministry came into power. He is the author of a considerable number of books, among which are "Edmund Burke!" "Olime." "Diderot and the Encyclopædists." He also wrote the lives of John Cobden and John Bright.
